

Innovative, unique and complete party concept: Beatsclassics

The tip of the top en the cream of the crop of ultimate music experience has combined its strengths in a new three-dimensional and multi-sensual live concept: **Beatsclassics**. With the best dance tracks and dancefloor classics, mixed on the spot by deejays, topped with a rich sauce of live percussion, vocals, saxophones and keys, dance and visuals, **Beatsclassics** is one of a kind and stands for an experience that takes you to the next level.

The beat is on

On the stage the band literally revives the best famous dance hits with vocals, saxophones, keys and percussion. Classics are transformed into pumping, grooving, live performed floor fillers. Samples of dance hits are being mixed and pimped live by deejays, while veejays add some extra visual dimensions to each track.

This makes **Beatsclassics** the ultimate mix of live music, vinyl, visuals and electronics, served to you by a stage act that provides the complete go-wild experience, and that spoils your senses to the max.

New & improved

Since the arrival of the music video, the mix of visuals and music is ever present in the modern party scene. **Beatsclassics** is the first act that knows how to combine all these elements with live musicians. A new, refreshing impulse for the highly experienced and spoiled audience of today. **Beatsclassics** is a concept, a state of mind, a way of life that takes parties, festivals and events to the next level. Revolutionary and familiar, original and exciting, **Beatsclassics** has only one target: to rock!

It's the groove that makes you move

Beatsclassics is an initiative by saxophone player and producer Carlo Banning. His extensive stage experience in bands, in festivals and events, in the theatre and in the club scene combined with a conservatoire diploma, results in the joint venture of all musical and visual powers in this super project. The creation of a perfect and complete party experience is the starting point. **Beatsclassics** distills the best from different disciplines and merges this into a flowing, grooving and overwhelming experience, in which performance, music, actuality, creativity, the hottest tracks and dancefloor classics are key elements.

Possibilities and bookings

The basic line up of **Beatsclassics** consists of five people (vocals, saxophone/vocals/percussion, percussion/vocals, keys/percussion and deejay/veejay). It is also possible to extend the basic line up of the band with extra musicians and/or dancers. **Beatsclassics** can be booked for parties, events and festivals as a 90 minute act or in another form to be determined. A full evenings programme with an extra deejay or another supplementary act is also a possibility, as is the addition of an extra veejay, with whom live video recordings from the audience can be mixed into the visuals. Please contact us for more information, possibilities, reservations, bookings and prices.
